

2009 Honda Pilot

Ride ready.

Finding the moment. The sweet spot.

The instant when everything comes together perfectly. Achieving it is easier when you're ready for anything. With its wealth of features and impressive capabilities, the new Pilot is your tool of choice. Drive useful and functional. Go prepared and equipped.

**The key to
true happiness
is recognizing
when you're
experiencing it.**

Pilot 4WD Touring shown in Billet Silver Metallic with accessory towing kit and hitch ball.

The new Pilot is designed for adventure. Fitted for fun. And especially with the new Touring model, it even handles a desire for luxury. With features like a power tailgate, navigation system¹ and Bluetooth[®] HandsFreeLink[®], it just may be the most sophisticated tool in the shed.

Pilot 4WD Touring shown in Dark Cherry Pearl with accessory 17" chrome wheels, chrome side steps and towing kit.

**Two's company.
Eight's an event.**

Pilot Touring shown in Billet Silver Metallic.

If the moment at hand involves up to eight people, a load of gear, or any combination of the two, the Pilot is up to the task. The 60/40 split-folding second- and third-row seats give you 16 different configuration options. For greater third-row comfort, the 2009 Pilot includes almost two inches of additional legroom.

Pilot Touring shown with Gray Leather and available Honda DVD Rear Entertainment System.

Discovery tool.

Pilot 4WD Touring shown with Black Leather and available Honda DVD Rear Entertainment System.

Drive informed. The Touring model's Honda Satellite-Linked Navigation System[™] with voice recognition gives you information on 7 million points of interest,* provides Zagat Survey[®] ratings and reviews, and even lets you call ahead with its Bluetooth² HandsFreeLink capabilities.

*Some roads unverified. See the navigation system owner's manual for more details on coverage.

†Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

The Incredibles. Now on Disney DVD. © Disney/Pixar

Honda DVD Rear Entertainment System, available on EX-L and Touring, lets rear passengers choose their own distinct audio or video source, or plug in a game console.

Premium audio system on EX-L with RES and Touring features 10 speakers, including center channel and subwoofer, surround sound and a 512-watt amplifier. Radio Data System (RDS) on all models can display information on the song currently playing. XM[®] Radio⁴ is standard on EX and above.

Digital Music Files can be accessed through a USB port⁵ on Touring or through an MP3/auxiliary input jack on all models.[†]

iPod is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries. iPod not included. Provided by Filter U.S. Recordings © and © 2007.

Drive comfy. The Pilot is equipped with enough amenities to ensure that every passenger gets his or her fair share of pampering. This includes an 8-way power-adjustable driver's seat featuring power lumbar support (EX and above) and 4-way power-adjustable front passenger's seat (EX-L, Touring).

Moonroof on EX-L and Touring models is larger than previous generations and features a sunshade and a wind diffuser for minimal turbulence inside the cabin.

Ports and outlets on select models include a USB port⁵ and a 115-volt outlet.

Front center console offers class-leading storage capacity.

Two-position memory on Touring adjusts driver's seat and outside mirrors.

Integrated second-row sunshades are standard on the Touring model.

Second row features climate controls and a 12-volt power outlet. RES-equipped models include RCA inputs for a game console or other video source.

iPhone is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries. iPhone not included. Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

Pilot 4WD Touring shown in Nimbus Gray Metallic with accessory towing kit.

Rear storage well is larger than on previous models, giving you plenty of cargo space even when you're loaded up with passengers. Its cover keeps valuables out of view.

Drive to get something done. Anything at all. And with its 4-ft-wide fold-flat floor, 87 cu ft of cargo space,⁶ tie-down anchors, cargo-area bag hooks and a new lift-up glass hatch for increased access, the Pilot is a fully functional toolbox.

Power tailgate on Touring models gives you push button-access to the vehicle's cavernous cargo area.

Honda reminds you to properly secure items in the cargo area.

Pilot 4WD Touring shown with Gray Leather and available Honda DVD Rear Entertainment System.

Drive with a purpose, a mission and the knowledge that
you've got power to spare. The 3.5-liter i-VTEC® V-6 generates
250 hp and 253 lb-ft of torque—enough to tow up to 4,500 lbs.⁷
Standard equipment like an integrated Class III trailer hitch,
heavy-duty radiator and fluid coolers means the Pilot comes
fitted with most of what you need for some serious hauling.

Pilot 4WD EX-L shown in Sterling Gray Metallic with accessory towing kit, hitch ball and trailer harness.

Fact: Gas stations make lousy landmarks.

Pilot EX-L shown in Bali Blue Pearl.

Drive smart. Variable Cylinder Management™ (VCM®) technology on both 2- and 4-wheel-drive models activates or deactivates certain engine cylinders, giving you power when you need it, more miles between fill-ups and an Ultra-Low-Emission Vehicle (ULEV-2) rating.

It's fuel economy⁸ cleverly disguised as a powerful engine.

3

During steady cruising, the Pilot's V-6 shuts down the entire rear bank of cylinders—resulting in greater fuel efficiency.⁹ An Active Noise Cancellation™ (ANC) system helps control engine noise.

6

When maximum torque is required—such as when you're merging onto the freeway or climbing a steep hill—all six cylinders are firing to deliver the engine's full power.

4

When cruising speeds climb, the engine moves from 3-cylinder operation to 4-cylinder mode. The transitions between all modes are nearly seamless to the driver.

Drive nimble. The journey may be half the fun, but you still want to get where you're going. The Pilot's rigid unit-body construction, enhanced independent suspension and variable power-assisted rack-and-pinion steering deliver precise handling and a smooth ride. The larger wheel and tire combination also adds to the vehicle's incredible ride quality and stability.

Pilot 4WD Touring shown in Billet Silver Metallic with accessory crossbars.

Hill Start Assist senses when you're stopped on an incline and will hold the brakes for a brief moment as you transition from the brake to the accelerator to help reduce rollback.

4-wheel independent suspension features a front strut/multi-link rear design for a smooth, car-like ride. The front suspension uses fluid-filled bushings for better ride isolation and vibration control.

VTM-4 Lock® on 4-wheel-drive models helps when circumstances require extra traction. You can manually lock the rear differential with the push of a button located on the instrument panel.

As important to your well-being as the Pilot's various safety features, equally crucial are the vehicle's performance features, such as the sophisticated steering and suspension systems, which help keep you out of trouble in the first place.

Pilot 4WD EX shown in Mocha Metallic.

Safety settings.

The core Honda belief that every passenger deserves heightened levels of safety has led us to become an industry leader in developing and applying advanced safety technology. The Pilot is a prime showcase for this philosophy with standard features such as active front head restraints, Vehicle Stability Assist™ (VSA®) and the Lower Anchors and Tethers for Children (LATCH) system in 4 seating positions.

Six airbags offer all three rows an impressive defense against injury. They include dual-stage, dual-threshold front airbags* that can vary their deployment based on accident severity and seat-belt usage, front side airbags with passenger-side Occupant Position Detection System (OPDS), and three-row side curtain airbags with a rollover sensor.

*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

Rearview camera on EX-L models utilizes a portion of the rearview mirror as a full-color camera display when you engage reverse. On Touring models, the image is displayed on the vehicle's navigation screen.

Anti-lock braking system (ABS) also features Brake Assist, which helps apply full braking force in some emergency situations. Electronic Brake Distribution (EBD) helps balance braking forces depending upon dynamic loading.

Tire Pressure Monitoring System[®] (TPMS) notifies you with a warning indicator in the information display if air pressure in a specific tire is significantly low. Touring model gives you an individual pressure readout for each tire.

Vehicle Stability Assist (VSA) system helps sense oversteer or understeer and brakes individual wheels and/or reduces engine power to help keep you on your intended course.

Front airbags inflate and deflate in a fraction of a second.

Advanced Compatibility Engineering™ (ACE™) body structure helps improve crash-compatibility in frontal impacts with vehicles of differing bumper heights and in offset-frontal impacts. The increased use of high-tensile steel improves the integrity of the passenger compartment.

Pilot Touring shown in Formal Black.

“We only have one future, and it will be made of our dreams”

—Soichiro Honda

A dream is a view of the  world not as it is, but as it could be. For

60 years, Honda has encouraged its associates to aim beyond what is currently possible. All for the purpose of progressing human mobility. This spirit has resulted in advances in environmental technology, like the hydrogen fuel cell FCX Clarity, that brings us closer to a future filled with blue skies. It guides us as we strive to exceed government safety regulations and has led to industry-changing innovations

 on the ground, in the water, and, with the HondaJet™ in the air. And it pushes us to use premier race circuits as testing grounds for our ideas. Moving forward, our minds are open to new ideas, no matter where they come from. Because you never know what will be until you discover what can be. dreams.honda.com

Pilot Touring shown in Nimbus Gray Metallic.

Moments of clarity are the ultimate collectible.

Perfect moments are all about being in the right place at the right time. It also helps if you have the right gear, the right friends along, and of course, the right state of mind.

¹The Honda Satellite-Linked Navigation System™ is available only in the 48 contiguous United States on Touring models. See your Honda dealer for details. ²The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks by Honda Motor Co., Ltd., is under license. ³© 2008 Zagat Survey, LLC. Zagat Survey is a registered trademark of Zagat Survey, LLC. ⁴Required XM® Radio monthly subscription sold separately after 90-day trial period. Installation costs and other fees and taxes may apply after initial trial period, including a one-time activation fee. All fees and programming subject to change. Subscriptions subject to Customer Agreement available at xmradio.com. XM service only available in the 48 contiguous United States. The XM name is a registered trademark of XM Satellite Radio Inc. ⁵The USB Audio Interface is used for direct connection to and control of some current digital players and other USB devices that contain MP3, WMA or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your dealer for details on compatibility. ⁶Carrying too much cargo or improperly storing it can affect the handling and operation of this vehicle. Before carrying any cargo, be sure to consult the owner's manual for load limits and loading guidelines. ⁷Maximum towing capacity for 4WD models is 4,500 lbs. Premium unleaded fuel is recommended when towing above 3,500 lbs. Maximum towing capacity for 2WD models is 3,500 lbs. Towing requires the addition of the Honda accessory towing kit and hitch ball. Trailer harness standard on Touring models. Refer to the owner's manual for additional towing information. ⁸Based on 2009 EPA mileage estimates, reflecting new EPA fuel economy methods beginning with 2008 models. Use for comparison purposes only. Do not compare to models before 2008. Your actual mileage will vary depending on how you drive and maintain your vehicle. ⁹For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. See your owner's manual for details.
